

Subject: PE/SPORT	Term 1.2 (Nov - Dec)
--------------------------	-----------------------------

This term, we are studying...

Year	Topic(s)	Why this? Why now?
Year 7	<u>CORE PE</u> Boys: Tag Rugby Girls: Netball	<p>Boys are currently completing Tag Rugby this term due to the warm weather allowing us to make full use of the field.</p> <p>Girls are currently completing Netball this term due to the netball season starting and the high uptake the extra-curricular program has.</p>
Year 8	<u>CORE PE</u> Boys: Lacrosse Girls: Football	<p>Boys will start the term off with Lacrosse. This is an outdoor activity and in use at this point in the year to make use of our field before weather conditions limit it.</p> <p>Girls will start off the term with Football. This is an opportunity for girls to start or continue playing football. As the football season has just started, this is an ideal time to get involved in school and outside of school clubs.</p>
Year 9	<u>CORE PE</u> Boys: Basketball Girls: Lacrosse	<p>Boys will start on basketball which will be outside on the MUGA, this is because of access arrangements in the sports hall for the winter so therefore having basketball in the curriculum will have to be done in a warm time of year. This is also an opportunity to grow our extra-curricular program with KS3 and KS4 teams to be a part of.</p> <p>Girls will start on Lacrosse. As it is an outdoor sport, the warmer months are an ideal time to be learning this sport. This is a sport which isn't as accessible in Coventry so gives students an experience of a different sport where they can apply transferable skills from other sports.</p>
Year 10 & Year 11	<u>CORE PE</u> Physical activity options	<p>This term we are offering different sports and physical activities to maintain high levels of physical participation accompanied with our student voice of choice of activities. The activities on offer are Gym Suite, Football and Bench ball.</p> <p>We offer the gym suite all year round due to the limitations of 24 students at one time due to health and safety. We offer Football as this is the time of year that seasons start and an</p>

		opportunity to join outside club links. We offer rounders because it's the last opportunity for the year for warm weather activities.
Year 10	<u>BTEC Sport Component 1</u>	Students will be completing learning aim A (LAA) and learning aim B (LAB) in their theory lessons. LAA is based around engaging different people into sport and physical activity with addressing barriers. LAB will be looking into sports clothing and equipment in a sport of their choice. Meanwhile, in practical lessons, learning aim C (LAC) will be practiced in their delivery of a warm up.
Year 11	<u>GCSE PE AEP Coursework</u>	Students will be completing their final stages of their coursework around their reflection of skills and physical activities within their sport. Additionally students will be graded and recorded within a team sport, individual sport and a team or individual sport for their practical grade. This will mean they have completed 40% of their GCSE grade. (10% per sport + 10% for coursework).

Year 12	<u>BTEC Level 3 Sport</u> <u>Unit 1: Anatomy and physiology</u> <u>Unit 2: Fitness training for health, fitness and well-being.</u>	We continue the course teaching unit 1 and unit 2 as this gives students more time and opportunities for exam entry due to exam windows across the qualification (January and June). The content covered underpins knowledge that is crucial for the further two units.
Year 13	<u>BTEC Level 3 Sport</u> <u>Unit 3: Professional development in the sports industry</u> <u>Unit 5: Application of fitness testing</u>	Unit 3 is a compulsory unit set by Pearson. Learning aims A & B will be delivered in term 1. Unit 5 lends itself to be a more practical based unit following the heavy examination units. This unit provides the students with knowledge of fitness and wellbeing.
